Runway REPORT

In the new mood for easy-to-wear pieces, designers play to their strengths, giving us the essence of their brands. The result? Clothes that work for every woman - with no must-do trends, just looks and pieces to fall in love with. By SIVE O'BRIEN.

The new palette

Optimistic and arresting, electrifying colours add a cheery edge to dressing this season. Wear one powerful colour head-to-toe or blocks of colour with clashing combinations

TOP TIP Be bold, opt for a zesty colour you would never usually choose, simply wear it below the belt, teamed with the shade that suits your skin tone, closer to your face
