

JAMES BROWN LIKES AND LOVES

FOR CLOTHES I love silk scarves and pick them up everywhere. I'm a vintage fan, favourite finds come from What Goes Around Comes Around (351 West Broadway, New York, NY 10013, 001 212 343 9303) and Hidden Treasures (11650 Santa Monica Boulevard, Los Angeles, CA 90025, 001 310 571 0385) and Kate Moss for Topshop for more contemporary fashion. I wear my father's vintage YSL suits from the 1970s because they suit my frame perfectly. I've never found anything else as good. I love my pyjamas and buy them from Turnbull & Asser (71-72 Jermyn Street, London SW1; 0044 207 808 3000)

PRECIOUS THINGS I can't be without my brown Hermès bag. I've had it for about five years and carry it everywhere. I also can't be without my sunglasses and my signet ring. I collect vintage Rolex watches **FOR RIDING** I get my hats handmade by Patay and buy my riding boots and crops from Swaine Adeney Brigg (4 St James's Street, London SW1, 0044 207 409 7277)

EATING AND DRINKING I like real food, things like steak *au poivre* with chips. When out, I drink vodka and ginger ale at night, extra spicy Bloody Marys for the morning after, and Diet Coke all the time **THE SPICE OF LIFE** I've always been a big Diptyque fan, but I'm now really into Jo Wood Organics candles. I like the Usiku scent and burn them at home and in the office. I love coffee table books on just about anything, and antique books. I like to read biographies

HAIR AND SKINCARE I don't have a regime, it seems to suit my skin better that way, but the product I can't be without is my James Brown London leave-in conditioner **WORK** My most memorable shoot was one with Richard Avedon before he died, where we recreated his iconic images from the 1960s.
